Product Data BG 1000

BG 1000 is an excellent choice for Corrugated Box Manufacture- tube winding where high solids, medium viscosity, high wet tack, fast set time, and solid dry strength is mandated. This product does not contain any fillers such as clay or starch, it is 100% adhesive This product may be used for high speed corrugated processing units, hand fed corrugated folder units, and paper tubes that cannot be rolled with clay based adhesives due to heavy paper material. BG 1000 may be used in carton sealing applications, case sealing applications, corrugated to corrugated needs, Paper Filters and many other paper type applications other than box manufacturer and tube winding.

Appearance	Milky White liquid
Viscosity	700-1000
Solids	50-52%
Stability	Stable, no mix prior to use
Precautions	Protect from freezing
Packaging	55 gallon drums, 275 gallon totes
Tack/Hold Time	10-15 seconds
Fiber Tear	5-8 minutes
Use in Pump	Yes
Freezer Grade	No
